Profile

I am a motivated and detail-oriented Full-Stack Web Developer with strong foundational skills in front-end and back-end technologies. Passionate about building responsive web applications and continuously learning new tools and frameworks. Eager to contribute to real-world projects and grow as a developer in a collaborative team environment.

Professional Experience

DevHub Tech & Training Center

Mern Stack Intern

12/2024 -

present

Jaipur, India

- I work on both front-end and back-end development, gaining hands-on experience with RESTful APIs, database integration, and responsive UI design.

Projects

E-commerce Website

Goose (Web Name)

- The project includes features like product listing, product details, shopping cart, and basic user authentication.
- This project helped build foundational skills in full-stack development, API integration, and user-friendly UI/UX design.

Portfolio Website

My Portfolio

- A personal portfolio website created to showcase my projects and skills, which helped me understand the basics of JavaScript and React.
- Through building this site, I learned about component-based architecture, props, state management, and how to create interactive user interfaces.
